Orlando, Florida | (407) 747-7498 | jgriller1@gmail.com | www.linkedin.com/in/jasongriller/

EDUCATION

University of Central Florida

Orlando, FL

BS in Computer Science

August 2022 – December 2024

- **Relevant Coursework:** Mobile Device Software Development, Computer Science I & II, AI for Game Programming, Robotics, Database Systems, Security in Computing, Senior Design I & II
- **Extracurriculars:** UCF Google Developer Club, Knight Hacks, UCF Intramural Basketball

EXPERIENCE

Data Analyst Intern

March 2023 – September 2023

James Moore & Co.

Remote

- Leveraged knowledge in SQL to effectively query databases, retrieve relevant data, and analyze discrepancies in clients' financial data.
- Developed interactive and appealing visualizations in Tableau and PowerBI to assist in presenting complex financial data in a user-friendly manner to ease clients' decision-making process.
- Employed Alteryx and PowerQuery to optimize backend data processing and transformation, ensuring maximal efficiency and effectiveness during the data visualization stage.

PROJECTS/EXTRACURRICULARS

Compete Co. Logbook (Senior Design) | *React Native, AWS Services, JavaScript, CSS*

- Led backend development of a logbook feature for a sports tracking app, integrating AWS Cognito for authentication and designing a scalable DynamoDB schema to useful metrics for different sports.
- Refactored the React Native application to ensure cross-platform compatibility, resolving dependency conflicts and updating deprecated libraries to deploy on both iOS and Android devices successfully.

Skin Attic | *React, Node.js, Firebase, Tailwind, TypeScript, CSS*

- Collaborated with a small business to build a fully functional beauty web application utilizing a tech stack of React and Tailwind for a modern and responsive UI, and Firebase for a scalable backend.
- Successfully implemented Agile Scrum methodology to ensure timely delivery of project goals, exceeding the small business owners' expectations of features and deadlines.
- Integrated secure payment processing and implemented security best practices for web applications.

Cool Contacts | *React, Node.js, AWS EC2, SQL*

- Implemented a Contact Manager application with CRUD (Create, Read, Update, Delete) functions.
- Gained experience in full-stack development, SQL database management, and AWS EC2 deployment while emphasizing teamwork and effective communication.
- Implemented user authentication and data encryption to ensure secure handling of contact information.

Soccer Shootout | *Unity, C#*

- Developed a first-person soccer game in Unity, using custom 3D player models and creating our own storyline/world.
- Implemented AI systems for multiple character types, including scorers, defenders, and allied units, using NavMesh for pathfinding and custom behavior trees

TECHNICAL SKILLS

Languages: C/C++, Java, Python, C#, SQL, R

Tools: Git, GitHub, Docker, AWS, Jira

Frontend: HTML, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend: Node.js, AWS, Firebase, MongoDB, MySQL
